

STREAM EVOL 2017-18

“Exercise the mind and stimulate a desire to learn.” Unknown

STREAM Science, Technology, Religion Engineering, Art, Mathematics

Who can register: Students entering grades 4-8 in the current 2017/2018 school year

In this session we will dive into programming and graphic arts using various programming languages and graphic design programs. We will explore animatronics, electronics and LED programming using specialty boards and tools. Students will have use of 3D printers, Little Bits modules, LED lighting tools/boards, Drones, robotics and more. Beginner and up there is something for everyone. This is an evolving class so the class will grow and redesign to the student's needs. Space is limited so register early.

When: Wednesdays beginning September 20, 2017.

3:15PM – 5:00PM

Where: Media Center

All proceeds from This program go to advancing STREAM within the school.

STREAM EVOL
