

STREAM Touch Lab 2017-18

“Exercise the mind and stimulate a desire to learn.” Unknown

STREAM Science, Technology, Religion Engineering, Art, Mathematics

Who can register: Students entering grades K-3 in the current 2017/2018 school year

STREAM Enrichment TOUCH LAB - Mondays beginning September 18, 2017.

Amazing new hands on learning experience. Students will start out learning about the basics of electronics, programming and graphic design. We will begin on a journey through electronics where students will build their own simple "Bug Bots". After the robots, we will move on to graphic design using online tools and 3D printers. Students will design their own "Bug Bot". We will jump into Coding and Design using "Little Bits" to round out this session.

All levels welcome. Space is limited so register Early.

When: Mondays beginning September 18, 2017.

3:15PM – 5:00PM

Where: Media Center

All proceeds from this program go to advancing STREAM within the school.

STREAM EVOL
